GET STARTED

Each kit contains the following:

- Makey Makey Board (A circuit board with conductive touch pads)
- USB Cable (This will be used for power)
- 7 Alligator Clips (This can be used to connect items from the real world to Makey Makey)
- 6 Connector Wires (This can be used to connect your board with the keys (wasdfg) or (your directional keys and mouse clicks))

Additional materials needed:

- A laptop with makeymakey.com open
- Conductive materials (What does this mean? Let's look at the next page!)

WHAT IS CONDUCTIVE?

Each kit contains the following:

- Makey Makey Board (A circuit board with conductive touch pads)
- USB Cable (This will be used for power)
- 7 Alligator Clips (This can be used to connect items from the real world to Makey Makey)
- 6 Connector Wires (This can be used to connect your board with the keys (wasdfg) or (your directional keys and mouse clicks))

Additional materials needed:

- A laptop with makeymakey.com open
- Conductive materials (What does this mean? Let's look at the next page!)
